

MINI PITCH LOCATIONS

With the goal to provide a safe space for children to play in Cincinnati, the FC Cincinnati Foundation has committed to build a minimum of 10 mini pitches throughout the City of Cincinnati by 2024. The goal of the mini-pitch initiative is to build the safe spaces for children to play in locations with access to both scheduled soccer programming and free play. A lack of physical activity impacts a healthy well-being which impacts learning. We will overcome these barriers giving these kids another avenue of social engagement and physical activity in their neighborhoods.
