LAFC VS. ATL United

JESÚS DAVID MURILLO
LAFC DEFENDER

RE: Playing hard every game

“It’s been a few complicated matches so we are coming out with a lot of energy and pushing from behind as much as we can. Tonight, is one of those nights where we tried but couldn’t score. Giving the energy and that push from the backline is always important and I am just happy to be back on the field.

RE: Going up against one of the best strikers in the league

“He’s a really good forward. He is a complicated person to mark but I had to be concentrated so I knew that from the beginning. Tonight, things didn’t go our way but the positive is that we kept a clean sheet so for us defenders keeping a clean sheet is always important.”

RE: Messi joining the league

“As a player, you always to face the best and be among the best so for the league it is good. For now, we remain focused on us and do what we have to do and deal with that later.

RE: Liking to attack

“The game gives itself the opportunity. For me as a defender, I have to find ways to pull out the forwards and those opportunities just arise. I make those decisions because I want to help the team. I feel like I can create more chances for the forwards. It can be risky but you assume that risk anywhere on the field.
