**RE: Did you learn anything from today's loss you will use for the rest of the league?**

“Queda lo más importante por delante, quedan todavía partidos, a recuperarse esta semana, a hacer las cosas bien, a volver a trabajar lo que nos falló hoy y afrontar estos once partidos que faltan más playoffs con mejor mentalidad y olvidarnos de esta repetición. Es una pena porque teníamos ilusión con hacer cosas grandes, pero bueno, no se pudo hacer y pa' dar pa' lo que queda.”

*“The most important thing lies ahead, there are still games left, to recover this week, to do things well, to keep working on what failed us today and face these eleven games plus playoffs, to move forward with a better mentality and forget about this loss. It's a shame because we imagined doing great things, but hey, it wasn't meant to be and now we give what's left.”*

**RE: How did you feel about your debut?**

“It was not the best debut possible. Physically, I was a little tired, it's been a while since I've played a match. I need to connect with my teammates more but today was not a positive day, score wise, but, personally I got some good minutes to gain my rhythm and most off all connect with my teammates.”
