Sunday, September 3, 2023
LAFC VS. Inter Miami

ILIE SÁNCHEZ
LAFC MIDFIELDER

RE: On not finishing opportunities

“Steve [Cherundolo] and coaching staff made us aware during the week that we had to be very good finishing our chances because at the end of the day it is very tough to manage a game against Lionel Messi, Sergio Busquets, Jordi Alba, and Leo Campana. With all the players that they have on the roster, we knew it was going to be difficult to control them but our plan was to be aggressive and try to create chances as we usually do at home and to be good at finishing. So many things we could have done better.”

RE: Adjustments going into second half

“We played a good first half. As I said, our plan was to be aggressive and to try to beat them as a team because we know their players can make a difference. We can make the difference as well with Carlos [Vela] and I think we did for some moments with our forwards. I want to take what happened tonight and try to get ideas moving forward. It’s a been a tough season in terms of schedule and trying to fight against so many factors.”
