

**POST GAME QUOTES**  
**Wednesday, August 23, 2023**  
**LAFC VS. Colorado Rapids**

**RYAN HOLLINGSHEAD**  
**LAFC DEFENDER**

**RE: Different players being able to score**

"[It's] Super important for us. A lot of guys stepping up and scoring goals and not just relying on one guy [Denis Bouanga, Carlos Vela]. That is going to be huge for us moving forward and for the rest of the season and getting into playoffs."

**RE: Vision on when to attack**

"There is no clear answer on this. A lot of it is the way the play develops and the feeling of the moment. There are ways the ball is rotating across the field and also a balancing act with the other outside backs so if one is going then the other is covering. There are just moments when you see space and you can exploit it. I come from an attacking background, so I like getting into those spaces. Whenever I get the chance, I like to go for it."

**RE: Constantly pressing moving forward**

"We feel like it has not been [replicable] is because of the intensity of the games and short schedules that we have had and trying to with very little rotation has been really difficult that high level press of football. The final third now of this league games are now more spread out. We only have one little chunk of a difficult stretch of games but we are mostly playing one game a week and when we are able to recover and prepare for games And have that time for our body then that is going to be very dangerous."
