LAFC VS. LA Galaxy

**DENIS BOUANGA**

**LAFC FORWARD**

**Re: How important it was to get back on score sheet**

“I feel really good. I feel like it gives the team a really good push [forward].”

**Re: Back in the race for the Golden Boot**

“It’s really important because it gives me the motivation to try and take first place. I know I can succeed but the two goals are because of the team so it’s really important me that I scored because of them.”

**Re: Cristian Olivera getting his first start**

“He likes to play deep and play the ball and its easy to play with a player like him. He knows to dribble so it is really easy to understand each other on the field. “

**RE: Motivating factor of only playing 10 minutes for his country**

“It does give me extra motivation. If I had to do it again then I would do it again whether its 10 minutes or 90 minutes, playing for my country is really important and I always have that hunger to play with my club or with my country.
