LAFC vs Tigres (Campeones Cup)

MAXIME CRÉPEAU
LAFC GOALKEEPER

RE: On the team's missing opportunities to win trophies this season:

"Today, especially today, I believe it could have gone both ways all the way up until the penalty kicks. It's a matter of seconds. It can go both ways in penalties, to be fair with you. Previously, in the other finals, yes, there were some X's and O's, our decisions on the ball that cost us some finals. But tonight, I believe it can go both ways in different spots."

RE: On the general feeling within the team:

"It's shit, man. It's atrocious. You don't want to lose, especially in this way, at home, the final. No, man. You don't want to lose."

RE: On if he expected to be subbed out before the penalty shootout:

"No, I didn't expect to come out."

RE: On if head coach Steve Cherundolo spoke to him before he was subbed off:

"It was just a decision from the staff."

RE: On how this game can help the club:

"This team right there has the experience, knows how to play in those finals, lives for the big moments but tonight we came up short. But that's the main objective of the organization. Titles, trophies and compete on the highest level. Tonight, we came up short."
