RE: First match in LA

“I do not think we could have started in a better way. The most important thing was to get the three points. Obviously, as you can see we are still working on our fitness level. We suffered a bit the last 20 minutes but with the help of the crowd, we managed to get the result we wanted. I am still learning my teammates but its been very good so far. “

RE: Getting back to playing in a competitive nature

“To be honest, I was not happy with my distribution today because we walked through things in training but when we were on the field today there was a lot of misunderstanding between us but its normal. We are still in the process to know each other. I know physically I am not 100 percent yet and I need to get the rhythm of the competition because it has been 10 months since I have played.”

RE: What it's like playing soccer in Los Angeles

“I think today you can see it. The atmosphere. The atmosphere in the stadium is just amazing. The expectation from the fans created a lot of motivation to all the players and people from LAFC. It makes us very ambitious. As you can see the last few years, the club has been very competitive, and they want to carry on in the same way. I really wanted to be apart of it and obviously Los Angeles is an amazing city.”
