

## **POST GAME QUOTES**

**Saturday, April 6**

**LAFC vs. Galaxy**

**SERGI PALENCIA**

**LAFC DEFENDER**

### **RE: Battling with the wingers**

“We knew they were going to be very dangerous of that aspect of the game. I could feel today that Painsil is a really good player, really fast but we trained all week with the focus on these players. Also, with Riqui, we know he is an important player for them. As a group we did a good job in closing the space and making it tough for them. Every time they had the ball, we made sure they felt our arm, making the game difficult. We didn’t allow them to feel comfortable. We will keep going with that mentality.”

### **RE: Playing tight defense**

“For us we look these types of games. We try to perform better than ever in those games. We feel the crowd really present. We love playing the game blocking shots and making great tackles to good players. We always want the good players to challenge us. Today we were successful.

### **RE: Galaxy complaining about refs and lack of calls**

“Along with that Murillo said, throughout the season there have been calls we have not agreed with but we have stayed quiet and have not found any excuses. Instead, we look for areas to improve in our game and leave the refs alone. There are definitely times where they [Galaxy] could have been carded but they were forgiven.”
