

POST GAME QUOTES
Saturday, April 6
LAFC vs. Galaxy

TIMOTHY TILLMAN
LAFC MIDFIELDER

RE: On the match

“I think today, or tonight was a really, really important game for us. Especially after the setback in Colorado. It was just important to deliver a good match and a good fight. In the end we are really, really happy. I think we played very, very disciplined in the second half and we deserved the win tonight. And yeah as I said we are really, really happy right now.”

RE: On his goal and how he can translate his play to the United States Men’s National Team

“I think right now it’s just important to focus on the team. If I play a good year, then the focus of the national team will come. But yeah, I just have to perform here and anything else is in the hands of Gregg [Berhalter] right now.”

RE: On his performance and the level he’s been playing at

“I think I did the same last year as well. I’m just trying to work as hard as I can every single day. Yeah, this season is going really good for me so far. I’m just trying to help the team as much as I can. That’s it.”

RE: On playing on a yellow card for over 70 minutes of the match

“I think it is important to not let it influence you too much, if you are on a yellow card. Of course, you need to be smart then. I think I’m a smart player, so I could deal with it. Of course, there are some situations where you have to stop maybe, or take a step back before trying too much and maybe ending up in a foul. But it’s just about effort. If you try hard enough, if you keep chasing the ball down then you still have a chance to win it.”
