Re: On his game-winning goal and the team’s ability to regain the lead after conceding twice.

“I know that a game can last all the way to 94 minutes or more. So to be able to do this for my team, whether with an assist or a goal is always great. But if we can make a decision much earlier in the game that would be great as well.”

On his emotional reaction to his game-winning goal.

“I’ve always been like that. I just hate to lose. I just want to win. I’m addicted to victory. So if I can score in the 94th minute, I’ll do everything [I can]. I love to hear the fans shouting my name, shouting the team’s name and everybody. So that’s why I was fired up.”

Re: On what he saw in the first half that helped him get in behind Portland’s defense frequently.

“We were really able to play our game. We had watched videos and we saw that they were playing really high. So we were able to pass the ball really quickly and play a really good game that we had planned, but in the second half they changed their strategy so it was harder for us.”
