LAFC VS. Portland Timbers

TIMOTHY TILLMAN
LAFC MIDFIELDER

Re: On the match and the team's performance.

“Yeah I think we can be really happy about our first half. In the second half, we didn't really play good. We kind of lost the focus or lost the control of the game. Then they score, almost out of nowhere I'd say, but that gives them a little more power. It makes us think maybe a little more negative and then we start to struggle a little bit. But in the end we are really, really happy that we won this game.”

Re: On his current level of play.

“I think I'm feeling really, really good right now. I'm very confident in what I'm doing right now. I just enjoy playing right now. I just have fun being with the boys and being with the team. I enjoy working at the club, working every single training. That's kind of carrying me through the season.”

Re: On the play leading up to his goal.

“I just saw [Cristian Olivera] one-on-one with one defender. Honestly, I just wanted him to pass the defender and just score that one, but I knew ‘Okay, if he's going to need an option to pass back I have to be there.’ So I started running and then he just laid it off for me and I was like ‘Okay, hit or miss.’ It turned out to be a nice goal.”
