LAFC vs. Vancouver Whitecaps

SERGI PALENCIA
LAFC DEFENDER

RE: How the team will maintain this rhythm on the road

“Simply just playing with the same intensity. With the same mentality we play here, we have to play with away from home. We are the first that want to get better away from home. In the end, we are the ones that want to get better, and we know its on us. We knows its always going to be just 11v11. Now we play St. Louis, where we know it’ll be a tough game. We now going with some confidence with the last two results.”

RE: Playing without Ryan Hollingshead and Eddie Segura playing on the outside

“First off, I don’t like playing because Ryan is out. I want him to be healthy. I wish him the best and hope is back as soon as possible. My approach is the same. Trying to work for the team. Sometimes I have put in more work offensively but today for example, you didn’t see me too much offensively because we knew one of the most dangerous things about Vancouver was the transition.
