**LAFC vs. STL City SC**

**DENIS BOUANGA**  
**LAFC FORWARD**

**RE: On what it means to come out with the three points tonight and what it means for the group getting these three points on the road:**

"It was important for us to continue what we've done at home on Saturday. So it was important for us to take the three points and to continue next time at home."

**RE: On the description and decision of the first goal:**

"At halftime, I spoke with Matty and I told him that I'm going to run because St. Louis play very high and I'm able to go inside towards the goal. Matty likes to play like this when I play fast. He looked for me in the depth of the goal, so that's what I've done, and when I was in front of the goal, I just shot the ball very straight to make sure that it went inside the goal, and it did, so I'm happy."

**RE: On performance from this year and last year:**

"The difference is that we play only one game a week, so I score less. But I always like to practice more and more so I can score. What I do similarly is that I didn't change. I like to play soccer. I like to attack the spaces, and when I have the opportunity to score or to make a good pass, I do it. So nothing has changed for me, and what is similar is that I work really hard to score goals."

**RE: On five goal contributions and teamwork with teammates in order to build that up:**

"When we practice, we like to practice on the offensive, and it's been two years that I've been here, and we always play forward, forward, forward. That's what I've done. And I'm trying every time I play to be decisive either by passing or by shooting, and I'm really happy about my stats this year, especially passing the ball to my teammates makes me really happy. And if I can contribute twice as much, I will still do it."
