Re: Thoughts on the match

"Most importantly, advanced in the tournament. Some decent sequences. We're always trying to improve. Getting ready for another big week coming up."

Re: On if his preparation was different heading into today's match knowing he was filling in for Steve Cherundolo:

"No. We prepared the same. It's just one day that Steve [Cherundolo]'s not here. So, everything was normal. We have a really tight staff, so it's very seamless. It could be me, it could be [Marc Dos Santos], it could be [Oka Nikolov], [Enrique Duran]. Doesn't matter."

Re: On the team recording a shutout in three straight matches and the team's recent defensive play.

"We kind of lost our way a little bit defensively. Some uncharacteristic errors that we were making. Lapses in concentration mostly. We kind of really tightened that up and paid attention to it in the last few weeks of training. So now we're seeing it pay off."
