LAFC VS. Loudoun United FC

TIMOTHY TILLMAN
LAFC MIDFIELDER

Re: On being named to the United States' provisional roster for Copa America.

"I'm just thankful for it. Thankful for the chance, thankful for the possibility I get to show myself with the national team. I'm thankful for my teammates, as well as thankful for the Club. They've helped me a lot throughout the years now. As I said earlier this season already, I just enjoy playing here, I just enjoy working here. It's been an amazing environment for me, so I'm just feeling blessed."

Re: On what it means to be named to the United States' provisional roster for Copa America along with his brother, Malik Tillman.

"It means a lot. As soon as we got the email about it, we texted each other. We were super, super happy. Couldn't even believe it in the beginning. Now we're just looking forward to it."

Re: On why LAFC has been so beneficial for his personal development as a player and the development of other players.

"I think what's very, very unique about LAFC is that it's just a club which is like a big family. It was super easy for me to feel welcomed here. That's making it much easier to just arrive, to get to know the way of play. I think our idea of playing just suits me really well. As I said the whole team, the whole club, everyone around LAFC just helped me a lot. So it was super easy to settle in, even coming from Germany. That's what I think makes LAFC special."
