

POST GAME QUOTES
Saturday, June 1
LAFC vs. FC Dallas

OMAR CAMPOS
LAFC DEFENDER

RE: How he's feeling about his role on the team

"The truth is I came in with some issues in the first couple matches. I come from a league where the game is played differently and because of that slowly I've had to adapt. And now we're enduring a streak where they haven't scored a goal on us in six games. That's because of the work we put in daily. Every day we push ourselves to improve so that on game days we can produce."

RE: How they feel about time off then two road games

"This break comes at a good time for us. We had a bunch of back-to-back games. We all have some small issues so this break is coming at a good time for us. When we come back, we will train well to take on the road matches and get the results."

RE: Biggest challenges joining this team

"It's definitely been a challenge in a position where Ryan plays and he's a really great player that does it very well. I took it personally as a challenge to find myself in a starting position. We're in a sport where it's about friendly competition, we need to give it our all."
