LAFC vs. San Jose Earthquakes

EDDIE SEGURA
LAFC DEFENDER

RE: Being back on the field on the field after all injuries

“I am really happy to be back on the field and helping my teammates on the inside of the field. Very happy to be apart of this incredible team and family that works hard day by day and shows it on the field. We are showing how strong we are on the field. It’s been a long time that I was out but I have been working hard. Being on the field tonight is a blessing.”

RE: What has happened with the team since the last loss 11 matches ago

“We got to a point where we felt like something was missing. I feel like work all around helped us turn the corner. We were able to resolve and improve our problems. Thank god for all the work we are now seeing a high level. We are enjoying it and are happy with the current moments. Today we had the opportunity to share the history with Kei Kamara. He passed Landon and is now in second place alone. We are happy he could make history with us. I can assure you he will continue to make history.”
