LAFC MIDFIELDER

RE: Feeling of winning a final

"It's amazing. We obviously sacrificed a lot to be here. To win on a special night at home is a great thing."

RE: Steve trusting him

"This is what we live for as footballers. We want to play in the biggest matches possible. For him to put his trust in me so early on with still learning how we want to play is massive trust and I really appreciate that."

RE: Having playing in the locker room like Giroud

"When you look around our changing room, it's full of winners and I think that's how you need to build a team. It is the changing room that demands the most out of people. Even though we were in a rough stretch, we knew it was going to change and couldn't dwell on it too much. Sometimes it is actually to have a bit of a low fall. We can take this win and move on."
