Non-medical masks or facial coverings must be removed during the security screening process, on the concourse and at all concession/retail locations. Non-medical masks or facial coverings may only be worn within the stadium bowl in the ticketed seating area as long as they do not create a distraction for other fans.

Costumes with sharp edges or tips, including all metal or hard plastic costume accessories and props are not allowed. This includes but is not limited to swords, toy guns, wands, etc. Light Sabers are allowed but subject to removal if used improperly.

Additionally, costumes are subject to further security screening. FCC reserves the right to ask anyone to remove their mask or costume due to stadium security measures.

Please be aware of our clear bag policy which extends to any bag related to a costume.
